

ATOL: Art Therapy OnLine

WRITING ART THERAPY

ATOL One-Day Conference

October 2018

Venue: Central London

Contact: feltmine@googlemail.com

Panel Speakers: Christopher Brown, Dean Reddick, Sally Skaife and Robin Tipple

In Art Therapy images and words are generated in clinical and therapeutic settings. Taking this material out of the setting into another arena, sometimes in another form, may generate anxiety for the Art Therapist and the Client. This conference hopes to provide delegates with an opportunity to address the issues involved in writing about Art Therapy, whether this is personal notes, feedback to other professionals, or for publication. We aim, through panel and group discussion over the day, to engage delegates in thinking about their own creative non-fiction writing and why it is important for the profession that we write about our work.
